International Exhibitors by Remote Exhibiting

Having business meetings wherever you are

104 international exhibitors have been having difficulties traveling, while this Remote Exhibiting Plan offers a new way to exhibit at a real show without traveling.

International exhibitors had their own booth to showcase their products physically at the show venue and their booths were represented professionally. By having the actual products and samples, the visitors can see and touch them, enabling them to evaluate the quality just like they always do. Only that the meetings were held by video calls.

This unique service is only offered by RX JAPAN amongst all the international show organisers. RX Japan has been offering this new way of exhibiting since 2020, and over 1,100 exhibitors from 44 countries/regions have exhibited this way.

FaW TOKYO 2021 October exhibitors achieved great success, and many more are expected to join the next 2022 edition!
